Description:

If there is one book you should read on the Rwandan Genocide, this is it. Tested to the Limit-A Genocide Survivors Story of Pain, Resilience, and Hope is a riveting and courageous account from the perspective of a fourteen-year-old girl. Its a powerful story you will never forget. -Francine LeFrak, founder of Same Sky and award-winning producer

Even though this tragic and meaningful story of the Rwanda Genocide broke my heart, I could not put it down. How the author ever made it through the terror that she and others lived through to tell her story is beyond imaginable. I ached for her losses of family members and friends, her dear father and brothers, and how they all were so viciously treated. Throughout the suffering Consolee, her mother, sister, aunt and others continued to believe that if God wanted them to live, they would. And they did! Thankfully. Even though I heard of the Genocide in Rwanda, it was not until I read *Tested to the Limit: A Genocide Survivor's Story Of Pain Resistance And Hope* did I have an idea of what the actual experience had been for so many. I am humbled to have witnessed Consolee's journey through her intense and poignant story of faith and survival. And I am grateful that Consolee survived to share her story, so that others will know the truth of the Rwanda Genocide through the eyes of a loving, faith filled and powerful human being. I highly recommend this memoir.
